

INSTRUCTIONS

- Create a definition statement / question for your DAP Capstone example:
 - I want to build a data analysis that answers the following question about (insert some or other subject here): My question is this ...(insert your question here ...).
- Write a Definition of the Audience / type of personas that might be interested in this analysis
- What datasets do I need to help me answer the above question for my particular audience? (1000 cells min)
- Choose any publicly Internet-available dataset(s)
- What research do I need to do to find data sources for my Capstone?
- List resources researched: (links to websites / materials)
- Note what you like about each resource and why you chose it
- Name other reference sources you want to consult

What question is your data going to solve?

What is the impact of Ultra-Processed Foods [UPF] on Health & Life Longevity?

Is there a correlation with UPF consumption and obesity, diabetes, and cardiovascular disease resulting in a lowered life expectancy?

How has UPF consumption changed over the last 20 years?

Definition of your audience

health conscience consumers, parents, healthcare professionals, at-risk patients consuming diets high in UPF, children

What datasets do I need?

US diet, obesity, diabetes,

Nutrition content UPF v Processed

life expectancy by diet

UPF & heart disease [#1 cause death]

List out your datasets here:

This is a blocker.

What do you like about each resource and why did you choose it?

Pain points and frustrations

Finding Datasets

May have to find a dataset then structure a subject around it.
